To whom it may concern:

I have had the pleasure of working with Angie Hood on a daily basis for this last school year (2019 - 2020) as a member of the mathematics department at View Ridge Middle School. She is a valued member of our group and I will miss working with Angie.

Angie's strengths are numerous. She is extremely hard-working, energetic, and always willing to help. Angie has helped me with issues ranging from technological questions to developing curricular material more times than I can count, and is continuing to do so through this new adventure of distance learning. I know that I can count on her assistance and input at any time. Angie's students know that her focus is their education and that she truly wants what is best for them. She works tirelessly to do that, seeking new ideas and trying them, all with the aim of improving her teaching and student's learning.

Angie is dedicated, reliable, and innovative. She will be an asset to any mathematics department and school district. If you have any questions about my experiences with Angie Hood, please do not hesitate to contact me.

Sincerely,

Kristina Call
