To Whom It May Concern:

It is with great pleasure that I write this letter in support of Angie Hood. I have had the opportunity to work closely as a co-taught math teacher with Angie during the 2019-2020 academic school year at View Ridge Middle School.

Angie has provided essential math instruction for 8th graders in a general education classroom as well as an inclusion co-taught math classroom. Angie is very familiar with math standards and connecting math concepts to enhance student learning. Angie is dedicated to the students before and after school as well as teaching students in our after school math tutoring program.

Angie has shown her passion for improving her teaching skills through seeking continuous professional development. In our very unexpected early ending of the 2020 school year in the traditional academic classroom, Angie was instrumental with her strong technology skills and seeking professional development to find solutions to a positive, engaging virtual learning model. Through team collaboration Angie has shared with staff what she has learned as we venture into our new teaching model.

This dedicated educator has so much to offer your school. Her unrelenting courage and resilience to embrace student and parent successes and challenges is one example of her leadership. Angie is not only passionate about helping students, she is also a leader in helping all staff with a positive attitude. Her contributions will always be appreciated.

Please feel free to contact me if you would like further information on her dedication to teaching.

Sincerely,
Melissa Johnson
